

## **ROOF REPLACEMENT**

The following roof materials (architectural shingles) were previously installed by the builder, Pulte Homes, or have been previously approved for roof replacement in accordance with the Design Guidelines that require materials to be similar to those originally installed.

Homeowners wishing to replace their roofs are encouraged to choose from one of these materials or to select something very similar to their existing roofs and to submit accurate color photos and actual material samples together with their Architectural Review Committee applications.

- Tamko Heritage Shingles. Color: Weathered Wood
- Owens Corning Laminated Architectural Roof Shingles. Color: Driftwood
- GAF Timberline® Lifetime Architectural Roofing Shingles, Glenwood. Color: Weathered Wood
